**MCXP & MCX
Partnership
Whitepaper (Litepaper)
v.2.0.1**

Introduction:

MCXP token is a cryptocurrency created by MCX Partnership to be staked in real-world assets. MCX Partnership plans to invest in specific assets (such as real estate, commercial properties, etc.) and open staking pools to share the profits generated from these investments.

MCXP will be used for staking in these pools and earning rewards. By staking their MCXP tokens, investors have the opportunity to earn a certain return based on the performance of the invested assets.

Token Distribution

- **Token Name :** Mcx Partnership
- **Sembol :** MCXP
- **Token Type :** BEP-20
- **Maximum Supply :** 250,000,000 MCXP
- **Contract :** 0xee903fE84186A2656092357236c266aED544048D

MCXP :

The MCXP token is a cryptocurrency created by MCX Partnership, designed to provide a seamless investment experience in real-world assets such as real estate, businesses, and other tangible investments. The MCXP token and MCX Partnership aim to bridge the gap between traditional finance and asset management industries and the blockchain industry.

mcx

MCXP Token Mechanism and Usage:

The MCXP token aims to open staking pools to share the profits gained from investing in specific real-world assets with investors. MCXP will be used for staking in these pools and earning rewards. By staking their MCXP tokens, investors have the opportunity to earn a certain return based on the performance of the invested assets.

mcx

MCX Partnership ve Platform:

MCX Partnership plans to develop the MCXP App, which offers the opportunity to invest in real-world assets and share the profits gained from these assets. Token holders will have the opportunity to invest in specific real estate and other tangible investments through the app.

mcx

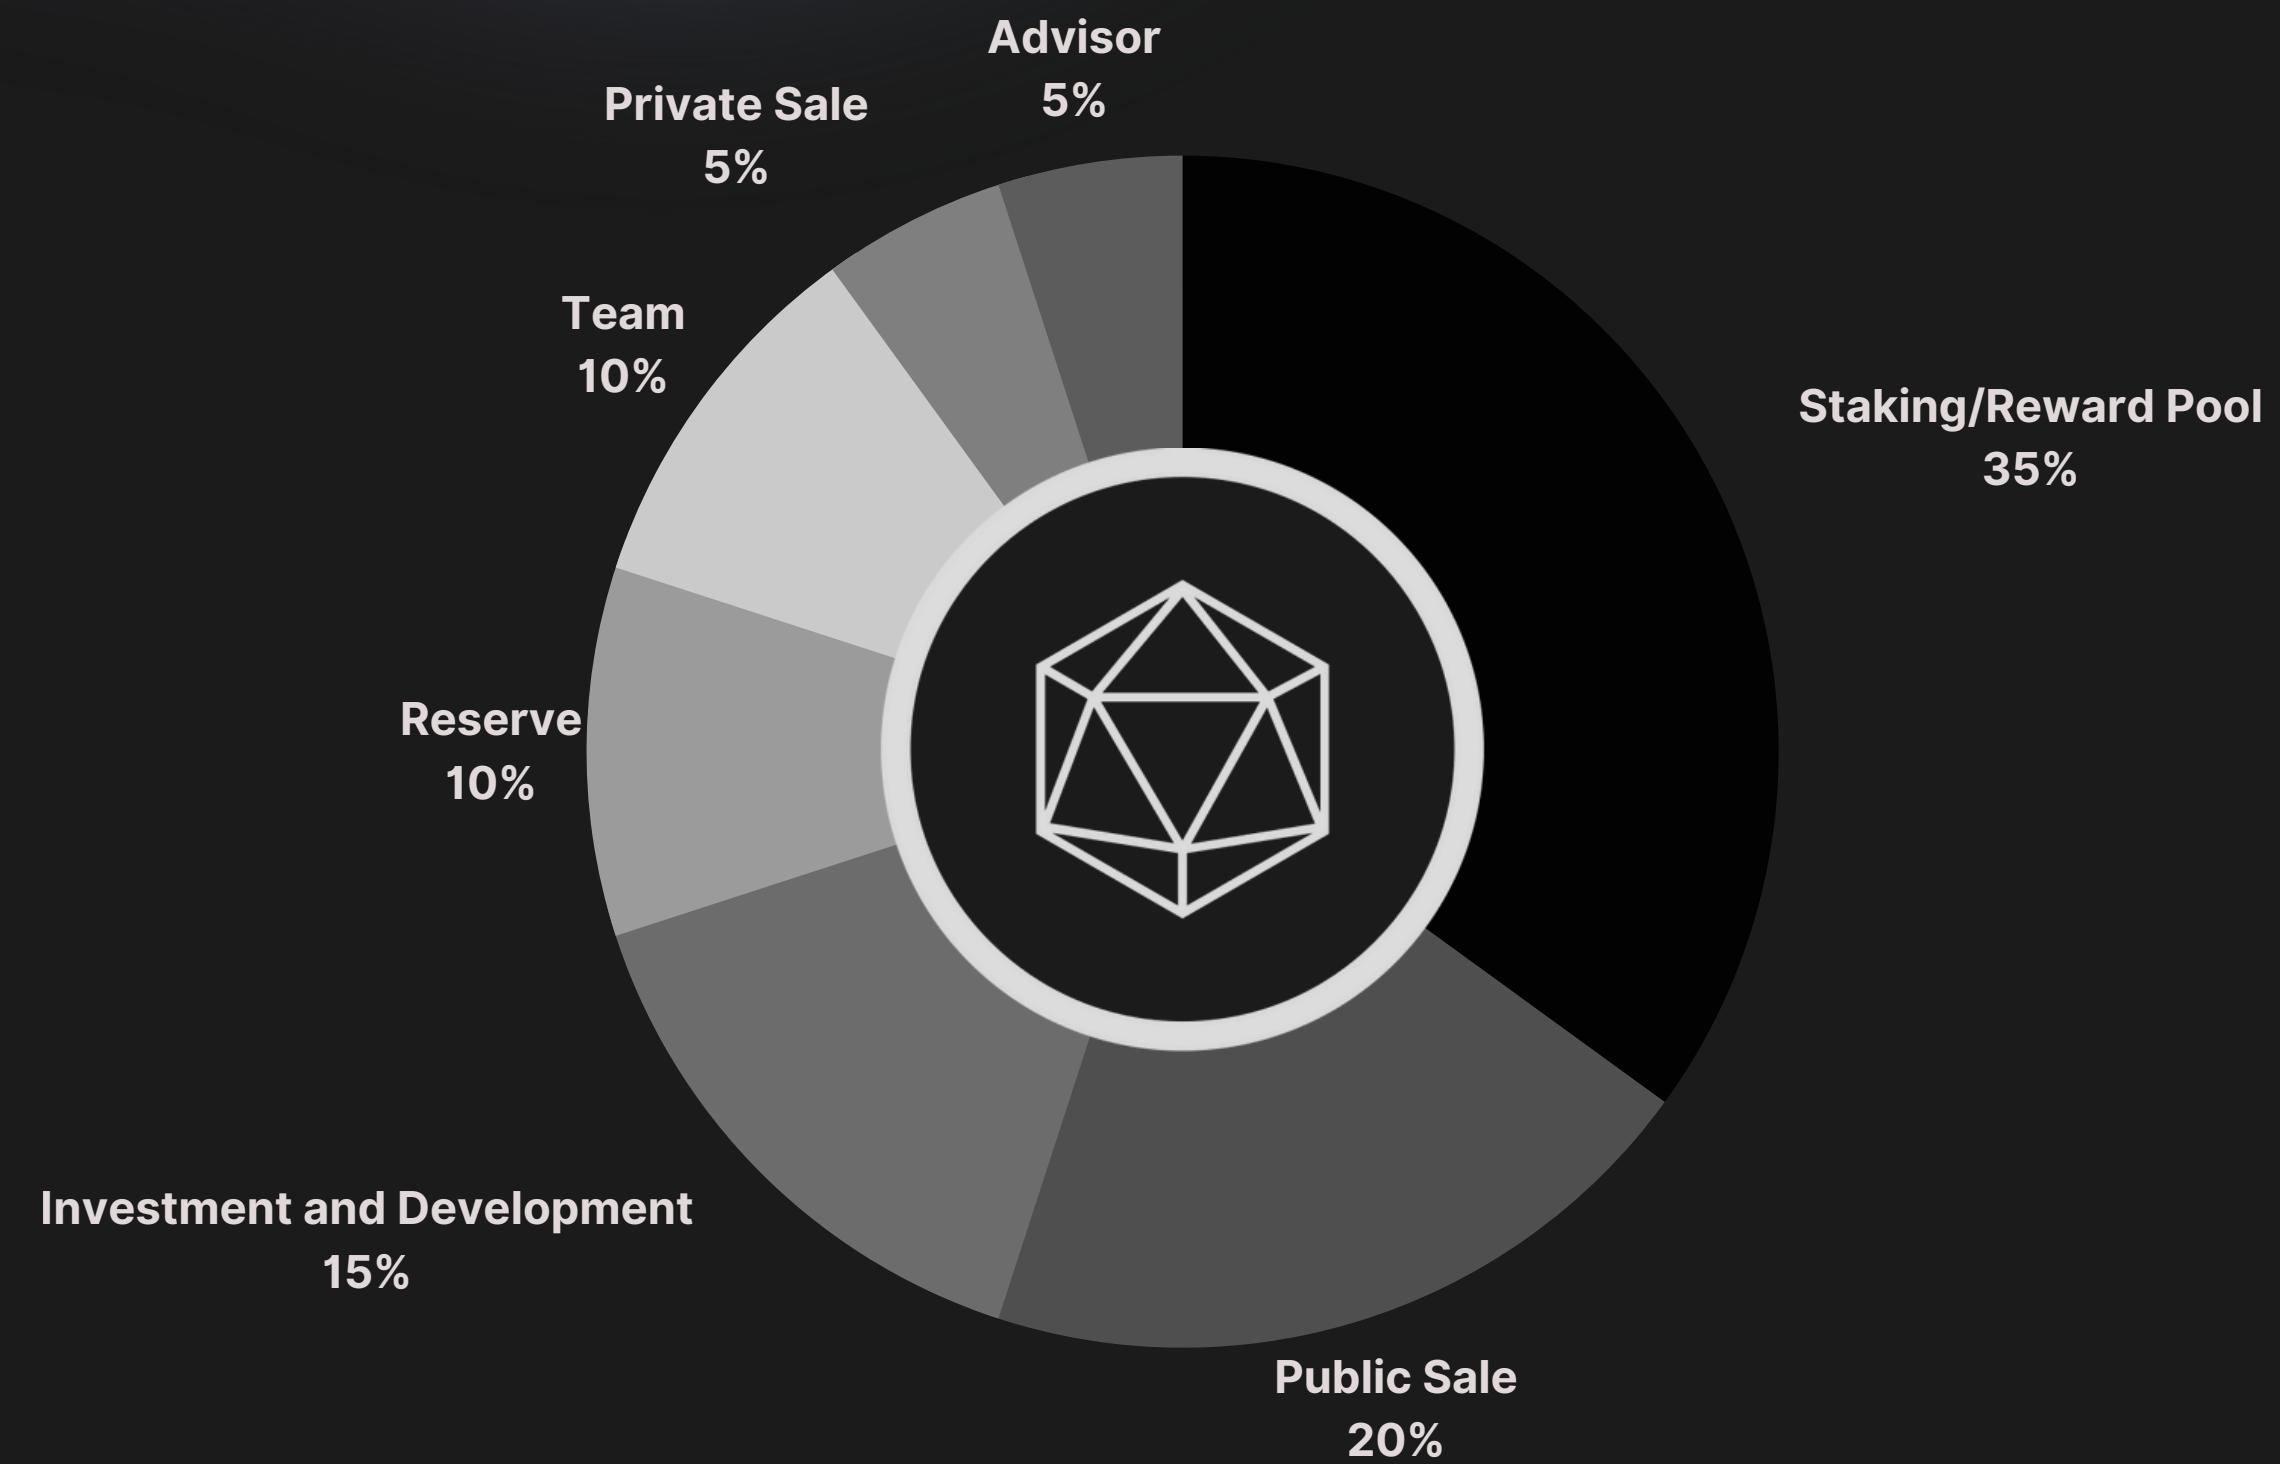

Background and Motivation:

Traditional investment methods have been criticized for their lack of transparency, high fees, and complex processes. Blockchain technology and cryptocurrencies offer new opportunities in the world of finance and asset management, promoting secure and transparent transactions and simplifying processes.

mcx

Tokenomics:

MCX

Token Distribution:

- Staking/Airdrop/Reward Pool: 35% (10% Reserved for the reward pool, %3 Airdrop.)
- Public Offering: 20%
- Investment and Development: 15% (locked for 2 year)
- Reserve: 10% (locked for 3 years)
- Team: 10% (2% of the 10% will not be locked, the remaining will be locked for 2 years)
- Private Sale: 5%, 2% has been allocated for Seed Sale, and the remainder has been set aside for the Launchpad. (locked for 3 months)
- Advisors: 5% (locked for 2 years)

MCX

Roadmap:

- Launch Project ✓
 - Website published ✓
 - Audit will be taken ✓
 - Airdrop ✓
 - Community will be created ✓
 - Private Sale (Seed Round)
- 
- Key team members will staff the project.
 - Staking pool will be created
 - IEO
- 
- KYC will be done
 - Legal regulations will be made
 - It will be published on Dex exchanges
 - Private Sale
- Investment options will have staking pools opened.
 - App will be published.
 - System development
 - New roadmap will be published

MCX

Future Plans and Roadmap:

Future Plans and Roadmap MCX Partnership aims to continually provide updates and innovations for the success of the MCXP token and platform. Short-term goals include promoting and increasing the popularity of the MCXP token, while long-term goals are set to include adding new investment opportunities and use cases.

mcx

MCXP Stake Pools and Profit Sharing:

- For each investment instrument, MCXP stake pools will be created based on their value. Investors aim to earn a share of the profits from the investment by staking MCXP tokens in these pools.
-
- Stake pools will open and close monthly. Exact dates will be determined and announced in the future.
- Tokens staked in the pool will not be locked. Investors can withdraw their staked tokens at any time. However, users who withdraw from the pool before one month will not be eligible for profit sharing.
- 10% of the revenues generated from the investments will be allocated for the company. This percentage will be used to cover expenses, taxes, and similar costs.
- 10% of the revenues will be accumulated in a pool designated for purchasing new investment instruments. This contributes to the growth of the platform and the addition of new investment opportunities.
- The remaining 80% will be distributed among staking users as profit sharing. This distribution will be made proportionally based on the amount of tokens staked by each user.

MCX

Example:

X = Profit sharing

X - 10% - 10% = Remaining 80% profit share

Max pool = Investment value = MCXP

Example:

Let's say the total profit for an investment asset is \$100,000, and the MCXP stake pool created for this investment is valued at 1,000,000 MCXP.

- Share allocated for the company: $\$100,000 * 10\% = \$10,000$
- Share allocated for new investment assets: $\$100,000 * 10\% = \$10,000$
- Profit share to be distributed to users: $\$100,000 - \$10,000 \text{ (company share)} - \$10,000 \text{ (new investment share)} = \$80,000$

In this case, the 80% profit share for users would be \$80,000. This profit share is distributed proportionally to users based on the total MCXP amount in the stake pool.

For example, if a user stakes 100,000 MCXP, they hold 10% of the total pool. In this case, the profit share this user would receive: $\$80,000 * (10\%) = \$8,000$

MCX

Total Supply

250.000.000 MCXP

Private Sale (Seed Sale) (Planning)

Token Price : 0,0011 BUSD

Token Amount : 5.000.000 MCXP

Hard Cap : 11.000 BUSD | **Soft Cap** : 5.500 BUSD

Private Sale (Fair Launch) (Next Step)

Token Price: 0,0019 BUSD

Token Amount: 7.500.000 MCXP

Hard Cap: - Soft Cap: 14.250 BUSD

Public Sale:

Token Amount: 50.000.000 MCXP

(The figures provided may not be final. In case of any changes, they will be announced through community channels.)
